DEAD SPACE Soundtrack

SOUNDTRACKS:

“DEAD SPACE” IS ONE OF THE TOP SOUNDTRACKS TO OWN FOR NOVEMBER, 2008

By **DANIEL SCHWEIGER**, Soundtrack Editor
Published 11/20/2008

Price: \$16.99

What is it: Score for insanely over-the-top videogame combo of **BIOSHOCK** and **HOUSE OF THE DEAD**, by way of **ALIEN**.

Why should you buy it?: Fans of nerve-shredding horror music will delight in getting pummeled by the near-continuous shock effects of Jason Graves powerfully performed score, which also has thankful down-time bits of space creepiness and man-alone melancholy thrown in.

Extra Special: If you're like me and get continuously killed in shooters, chances are you'll be too busy listening to your own frustration than the score. But on this download, you'll definitely get to Graves' final level of nightmare-inducing music.
